**IOUX(T)**  
Immuno-Oncology User Meet  
Rajasthan

Dear Doctor,

For more than **125 years**, Roche has been committed to making a difference to the lives of people. From vitamins in the late 1950s to the advanced medicines for treating different forms of cancer today, we have worked hard to bring the most innovative and path-breaking drugs to patients world over.

Our Vision is to inspire people to transform healthcare and care for every patient's life through sustainable, innovative solutions. Patient-centricity remains at the core of our business philosophy. Simply put, this means that at Roche, we put the patient at the center of everything that we do. In doing that, our orientation is towards being a value affiliate. As an organization we measure our success by the number of patient lives we touch, and can positively impact.

As part of a pragmatic immunotherapy user meet, it is our distinct pleasure to cordially invite you to share your clinical experience on Tecentriq (Immunotherapy) usage in your clinical practice in various indications. This user meet aims to bring together to share your distinct experience in various indications of Tecentriq in real world.

---

Look forward to your valuable presence in IO (UX) T  
on 3<sup>rd</sup> Sept, 2023 in Jaipur, Rajasthan

---

Thanking You  
Yours' sincerely  
Roche Oncology Enterprise Cluster Team
